Bitatrades brand is one of the most reliable brands active in the field of providing leather bags and shoes products, which it produces in two types, natural and synthetic, and supplies them all over the world.

Today, the use of leather bags and shoes is very popular because they are more durable than other bags and shoes and are suitable for formal and office environments.

Bita brand has a variety of designs and a brilliant history in the field of producing bags and shoes, which offers the best and highest quality products to its customers.

Natural leather is made from the skin of animals such as cow, goat, horse, buffalo, etc. Synthetic leather components are completely different and natural leather has a higher quality than synthetic leather due to its texture.

The use of leather bags has its own fans and has gained a good position due to its quality, naturalness, beauty, and durability, which are produced and designed in different types for different uses.

---

There are many types of leather bags such as:

Leather office bag

Men's leather wallet and women's wallet

Leather sport shower bag for girls and boys

Leather student bag

Leather laptop bag

---

Leather shoes are one of the most widely used items. Basically, quality and durability, along with beauty, are among the factors that are of great importance in leather shoes, and the reason for this is the daily use of shoes in office and work environments.

---

The shoes have many models, which have two types, women's and men's, and the variety of women's models is much wider

Sports shoes for women and men

Women's and men's ankle boots

Women's boots

---
